

ProjectDesignPhase-II DataFlowDiagram&UserStories

Date	15Oct2022
TeamID	PNT2022TMID36951
ProjectName	Project– Crude oilpriceprediction
MaximumMarks	4 Marks

DataFlowDiagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

UserStories

User Type	Functional Requirement (Epic)	User Story Number	User Story/Task	Acceptance criteria	Priority	Release
Customer(Mobile user)		USN-1	As a user, I can see the crude oil price history.	I can access the data available.	High	Sprint-1
		USN-2	By Entering the year(date) the model will analyse and display the output.	The analysed result will be displayed in the screen.	High	Sprint-2
